

PRESTOLITE POWERPRO™ 7 STARTER

HEAVY DUTY GEAR REDUCTION DESIGN

Leece-Neville PowerPro™ starters offer reliability and performance in a space-saving package. These advanced starters integrate the latest technologies available to provide reliable performance at each and every start, including an electrical soft-start relay that allows the pinion to properly engage the ring gear before cranking plus overcrank protection that protects the starter from high-temperature damage when starting the motor in extreme conditions.

PowerPro™ 7 high-torque starters for heavy duty diesel engines up to 16L include a heavy duty gear reduction design that delivers 12V 7kW starting power.

Engineered to include global technologies developed by Prestolite, PowerPro™ 7 starters can help to significantly reduce overall operating costs and maintenance related downtime.

FEATURE	BENEFIT
Overcrank Protection	Protects the motor in any operating condition for a reliable start anywhere, any time
Heavy Duty Brush Plate	Improves performance through increased surface area & better conductivity
Robust Armature Design	Reduces power losses & provides higher reliability for more consistent performance
High Power Rating	Faster, more efficient crank & source of power
Soft Start Relay	Helps eliminate ring gear damage
Integral Magnetic Switch (IMS)	Helps eliminate voltage drop issues by minimizing wiring between the relay & solenoid
Sealed Nose Housing	Adds service life & protects internal components

✓ **12 month unlimited kilometre warranty**
